Description

Available in different sizes; 500mm, 900mm and 1400mm.

This pendant is made from bamboo ply wood. The fitting can come in natural or caramel wood. Supplied in kitset form for self assembly, the natural timber has numerous painted finishes and some stains available. Please contact for more information.

“Fish traps are called hinaki by Maori, though often the name is used specifically for an eel trap. They were made from woven vines, some in amazingly beautiful forms. The first light I ever made in 1995 was also shaped like this and called Hinaki. Our kitsets significantly reduce freighting, which is one of our ways of doing what we can to help preserve our beautiful sea and land environments” - David Trubridge
